DETAILED ACTION

Response to Arguments

Applicant's arguments, see page 9, filed March 23, 2006, with respect to claims 1-8, 14 and 16 have been fully considered and are persuasive. The provisional nonstatutory obviousness-type double patenting rejection of 1-8, 14 and 16 has been withdrawn as per MPEP 804 (I)(B).

Allowable Subject Matter

Claims 1-33 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art taken either singularly or in combination fails to anticipate or fairly suggest the limitations of the independent claims, in such a manner that a rejection under 35 U.S.C. 102 or 103 would be proper. Although the prior art teaches methods for centering liquid drops and variable focus lenses using a liquid drop centering method, the prior art fails to teach such a method or device wherein the depression in which the liquid drop sits is defined such that it meets the size constraints as claimed in independent claims 1, 4, 6, 9, 14, 20, 25 or 31.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
